

Backyard Composting - Correct Application of Yard Chemicals - "Don't Bag It" Plan - Integrated Pest Management - Less Toxic Alternatives - Mulching - Vermicomposting - WaterSmart - Xeriscaping

# YardWise

## A Course for Yard Care

The "YardWise" program is a FREE annual course available to all Harris County residents interested in learning more about environmentally responsible yard care. This annual four hour YardWise class is designed to give residents expert advice and suggestions on how to better take care of their yards. Participants will experience a classroom session that features lectures, slides, and some field instruction.

### Some Yard Care topics that may be covered:

- Backyard Composting
- "Don't Bag It" Plan
- Integrated Pest Management
- Less Toxic Alternatives
- Mulching & Grasscycling
- Vermi-Composting
- WaterSmart
- Xeriscaping

**Date of event:** Saturday, March 10th from 9 am - 2 pm

**Location:** Armand Bayou Nature Center

8500 Bay Area Blvd., Pasadena, TX 77507

If you are interested in participating in the YardWise Course, contact us by phone, email or visit <http://www.cleanwaterclearchoice.org/hhw/yardwise.asp>.
