The Public Integrity Division of the Harris County District Attorney's Office completed its investigation into allegations that employees of METRO were destroying public documents and failing to comply with open records requests in violation of the Texas Public Information Act. From early March to the end of June, 2010, evidence was examined and witness testimony was developed, some with grand jury assistance. A careful analysis of all of this information led to the determination that there was no evidence of criminal wrongdoing by employees of METRO concerning the Texas Public Information Act, nor was there any evidence that any METRO employee had knowledge of the destruction of public records. The investigation has been closed.
