**DISTRICT ATTORNEY FUNDS NEW FINGERPRINT SYSTEM FOR HUMBLE POLICE**

(Houston, Texas) Harris County District Attorney Kenneth Magidson announces that on Tuesday, August 12, 2008, he will present a check for \$43, 370 to the Humble Police Department. This money will fund a new Motorola Printrak Latent Lite Station for the department which will lead to the more efficient handling of arrested and detained individuals. This system allows law enforcement to identify unknown latent prints using the most current technology.

This system enables law enforcement officers to quickly identify suspects through the use of their unique prints. The system will ensure that officers spend more time on the streets patrolling and less time in the station processing detainees.

Magidson states, "The District Attorney's Office is committed to improving law enforcement equipment and procedures that will streamline the arrest and identification process. Funds that are seized from criminal activity will be used to aid in the capture and prosecution of suspects."

The ceremonial transfer of the check will take place on Tuesday, August 12 at 1:30 p.m. at the Humble City Hall. The news media is invited to attend.
